

## **Construction Courses**

Whether you operate a large construction firm or a small one, keeping employees safe is of paramount importance. Vivid Learning Systems' construction specific libraries have been designed to help protect your people and your profits. Our library has been custom developed to provide the imagery and regulatory content to meet the specific needs of the construction industry.

From our Construction Core library developed in partnership with AGC of Minnesota to our online OSHA 10 and OSHA 30 programs, you have instant access to the tools you need to train your people anytime, anywhere.
