

## Transportation Safety Courses

Our partner, Vivid offers two general topics for Transportation safety training - our CSA and DOT courses cover the Federal Motor Carrier Safety Regulations (FMCSRs) and our HAZMAT transportation courses discuss the regulations for transporting hazardous materials.

In conjunction with the experts from the DOT Transportation Safety Institute, AdvanceOnline developed exclusive FMCSR training that covers the CSA BASICS.

HAZMAT training covers rules and regulations for ground transportation of hazardous materials. Courses cover an array of issues from general awareness training to specific information for shippers and drivers of hazardous materials. Our online courses include the latest security updates to the regulations.

- Best Practices for CMV Drivers
- Adverse Conditions and Emergency Situations
- Changing Lanes and Passing
- Curves, Turns, and Downgrades
